FOR IMMEDIATE RELEASE

### **DAVID YOST EARNS NAFI MASTER INSTRUCTOR ACCREDITATION**

**KALAMAZOO, MI — 04/20/2017** The National Association of Flight Instructors is proud to announce that NAFI member David Yost has earned accreditation as a NAFI Master Flight Instructor.

As a youngster, Yost had a keen interest in airplanes, building many models while growing up, primarily WW II warbirds. However, this love of airplanes didn't translate into actual flying until later in life. On the advice of a fellow Boy Scout leader who was a private pilot, he took his first flying lesson at age 47 and never looked back. In the 14 years since then, Yost has become a CFII and accumulated just over 2200 hours of flight time, all ASEL.

Yost as always been an active volunteer in one organization or another, and shortly after receiving his Private Pilot certificate, he joined the Civil Air Patrol (CAP) in Lake Elmo, Minnesota. 3½ years later he received his initial CFI and became a CAP flight instructor, and later a CAP Check Pilot. Yost flies almost exclusively through the Civil Air Patrol, and serves as a Mission Pilot, Instructor Pilot, Orientation Pilot, and Check Pilot Examiner. He has endorsed three students for the Private Pilot certificate and one for the Instrument Rating – all successful on the first attempt. Several more Private, Instrument, and Commercial students are currently training with him. In addition to the CAP, Yost serves the Minneapolis FSDO as a FAA Safety Team representative, and has given numerous flight safety briefings and presentations in various venues. Yost is also looking forward to adding a glider rating to his Commercial certificate this summer.

Outside of flying, he works in the computer IT industry for a major computer manufacturer. He is married to Shawn, his wife of 37 years. They have two sons and a three-year-old granddaughter. In his "spare time," Yost enjoys the occasional round of golf. Fortunately, he says, he flies better than he plays golf!

*The **NAFI Master Flight Instructor program** is the longest running and most prestigious FAA accredited master flight instructor program in the industry. The NAFI Master Instructor accreditation is earned by aviation educators based upon a system of advanced professional standards and peer review. The accreditation identifies and publicly recognizes those teachers of flight who demonstrate an ongoing commitment to excellence, professional growth, and service to the aviation community. The NAFI Master Instructor accreditation is for two years and may be used to renew an FAA flight instructor certificate. Applicants must have been a CFI for two years and have given 1,000 hours of flight instruction. In addition candidates must meet and document activity in four NAFI Master Instructor categories (Instructor, Educator, Service to the Aviation Community, and Professional Activity).*

*Members of the **National Association of Flight Instructors** work as independent instructors, at flight schools, universities, FBOs, corporate flight departments and in the military. Since 1967, NAFI and its members, who teach in 30 countries, are dedicated to increasing and maintaining the professionalism of flight instruction. NAFI members influence active pilots daily: students working to become pilots, current pilots training to advance their skills with new ratings or certificates and pilots who seek to improve their skills with recurrent training. NAFI also serves as an advocate with industry and government as a voice for flight instruction. NAFI helps shape the current and future direction of flight training. For more information about NAFI or the NAFI Master Instructor program call **866-806-6156** or visit [www.NAFINet.org](http://www.NAFINet.org).*
